Ring Complete Home Security & Video Kit	RING-KIT-1	This Ring Complete Home Security & Video Kit provides comprehensive protection for your home by combining intrusion detection, video surveillance, and smart notifications into one seamless system. The kit includes a Ring Alarm Pro system that serves as the foundation for whole-home security, offering reliable monitoring for doors, windows, and motion, along with advanced connectivity and backup features to keep your system online when it matters most. For video coverage, the bundle includes wired Ring Video Doorbells delivering high-resolution video, advanced motion detection, and two-way audio, allowing you to see, hear, and speak to visitors from anywhere. An outdoor camera pack extends visibility around the exterior of the home, providing clear video day or night to help monitor key outdoor areas. To ensure alerts are always heard throughout the home, a Ring Chime Pro is included, providing audible notifications, Wi-Fi signal extension for Ring devices, and a built-in nightlight for added convenience. Ideal for homeowners looking for: • Whole-home security and intrusion detection • High-quality doorbell and outdoor video monitoring • Real-time alerts and two-way communication	1	$721.57

		• Expanded Wi-Fi coverage for security devices • A unified Ring ecosystem managed from a single app This kit is designed to work together out of the box, delivering dependable home security with simple setup and centralized control.
