Unifi Bundle	Unifi-Kit-1	Custom UniFi Home Security Bundle This Custom UniFi Home Security Bundle delivers a complete, integrated solution for protecting your home with smart sensors, video surveillance, secure networking, and real-time alerts—all managed through the UniFi ecosystem. The system includes UniFi Protect All-In-One Sensors to monitor doors, windows, motion, temperature, and environmental changes throughout the home. These sensors provide instant awareness and automation capabilities for enhanced safety and convenience. At the core of the system is a UniFi Network Video Recorder, enabling reliable local video storage and management for your security cameras and doorbell. The UniFi Doorbell Lite provides clear video, two-way audio, and smart notifications for visitors and deliveries, while the included WiFi Smart Chime ensures you never miss an alert anywhere in the home. A dedicated mounting plate is included for clean and secure doorbell installation. The bundle also includes a UniFi Cloud Gateway, which serves as the secure network and management hub for all connected devices, providing centralized control, remote access, and advanced security features.	1	$1,663.00

		To ensure long-term reliability and peace of mind, the system is protected with UniFi Care coverage for critical components and enhanced cybersecurity protection through CyberSecure services. Ideal for homeowners looking for: • Comprehensive home security monitoring • Smart doorbell and video recording • Local video storage with remote access • Secure networking and device management • Long-term protection and cybersecurity support This bundle is designed to work seamlessly together, providing a professional-grade home security experience with simple, centralized control.		
Professional System Installation & Configuration	Onsite Security System Install	Includes device mounting, system setup, app configuration, testing, and customer walkthrough.	1	$399.00
